Attention to Hiring Team:

Phoenix Beverages Recruitment Team

I am writing to express my strong interest in the **Head of Infrastructure & Security** position at Phoenix Beverages Group, one of the largest brewery company in Mauritius, which I discovered on LinkedIn. With a proven background in network and security operations, I am confident that my skills and experience align perfectly with the requirements of this role.

In my most recent tenure as **Network & Security Operations Manager** at Ecovadis Ltd, I successfully led several key projects focused on business continuity, network performance, and the security of corporate devices and enterprise applications. I was also responsible for the day-to-day maintenance of our infrastructure and managed a global team of network & security engineers, including an external NOC/SOC service provider. My leadership skills have been instrumental in not only guiding my team but also supporting their professional development.

My qualifications and experience include:

- **Certifications:** Microsoft Certified Solutions Expert (MCSE), Cisco Certified Network Professional (CCNP), and Fortinet NSE 4. I also hold a Bachelor's degree with a First Class License in Networking and Database Management Systems from the University of Mascareignes, and MBA specializing in Project Management.
- **Technical Expertise:** More than ten years of experience with a strong command of infrastructure across networking, security, and systems. I have hands-on experience with platforms such as Cisco, Fortinet, Ruckus Networks, Site24x7 Full Stack Observability, Azure solutions (EDR, MDE, Firewall, WAF), and Netskope Solutions (ZTNA, DLP, CASB, SD-WAN, SWG, etc..).
- **Leadership & Innovation:** I have a track record of innovating service models, redefining network and security infrastructure for simplified global-scale implementation (SASE Model), and improving security controls. My leadership style focuses on delegating tasks effectively and instilling enthusiasm in team members to ensure project success (Visionary & Coaching)

My combination of technical expertise and leadership skills makes me a great match for this position. I am eager to apply my project management skills to new challenges and contribute to your team's success.

Thank you for your time and consideration. My CV and Leadership Assessment Report is attached for your review, and I look forward to the opportunity to discuss my qualifications with you further.

Yours Sincerely,

Adish Jugee
